 Remanufactured Toner Cartridges

## PC Geeks, LLC. Capabilities Statement

### Company Background:

PC Geeks was established as an Ohio company in January 1997. We are a technology support company that provides businesses with custom-built PC's, servers and laptops, service and support, as well as, website design and hosting. PC Geeks works with several vendor partners to provide complete project solutions that include cabling, office equipment (copiers, etc.) and telephony. We work with several of the largest distribution vendors to maximize cost advantages and component availability. PC Geeks sets itself apart by providing 'big company' support to small businesses by utilizing ITIL methodologies to manage and track customer accounts as opposed to the simple 'break-fix' relationships of our competition. This enables us to establish ourselves as true partners with our customers, instead of merely a vendor.

### Key Personnel:

#### **Greg Chamblin, Sr., President:**

Greg Chamblin Sr, has worked for and managed technical support staffs from a department level to the entire web hosting environment for Nationwide Insurance for 20 years. His exposure to the quality programs and best practice methodologies used by large technology firms mixed with his deep rooted entrepreneurial spirit led him to his current calling. His belief is that small to medium sized businesses can benefit from the increased stability and reliability of their technology just as large companies do and at a rate they can afford. He currently serves on the boards of the Reynoldsburg (Ohio) Chambers of Commerce, the Reynoldsburg Visitors Bureau, the Westerville Firefighters Memorial, and the Pickerington Violet Festival.
